Fear and Respect

This is a rough I did with an audio I took from the “11 Second Club”.

It was a fun scene that gives some exposition of this character I created.

Note: Audio by “11 Second Club”.

Junior Detective

I animated this rig to act out a scene from the “11 Second Club”. It was a sweet scene about a mother turning a space in their home into a makeshift detective office to fulfill the curiosity of her child.

Note: Audio by “11 Second Club”

I ONLY animated the rig.

Hot Potato

I animated this rig ONLY! This was an experimental scene.

Note: I ONLY animated the rig.

Strange Box

This was the first animation scene I created for my character Admiral Nas'tay.

Note: I was exploring my acting and color choices.

Queen Of Concentration

This is a rough character animation of another original character called Sal'lay Darkstar. Her contemplation is disrupted by a cat.

Note: Cat animated separately.

Walk Cycle

Admiral Nas'tay is displaying his character attitude in his walk.

Note: This walk cycle is a revision of an earlier animation I also did.

Earthy Comforts

This is my first attempt at a self produced animation. Written, directed by me, but did have amazing work from an amazing cast and crew.

Note: The first of many scenes and stories with a cast to help me see my dream come true.
